

Gifts in Kind

We very much appreciate gifts in kind from corporate supporters. We are constantly in need of technological support, office and building products, merchandise suitable for competition prizes, and services for our many projects. Not to mention catering services, wine for fundraising dinners and reception, use of conference facilities, laptops or mobiles for our community-based fundraising staff... whatever your business, you can help!

Donating 'in kind' is a practical and impactful way for your company to support our work to end Human Rights abuse related to children and family contact. If you would like more information [click here](#)
